

Families across the country trust the Lindens to provide expert care for their child.

The Lindens is a highly effective residential treatment program for children living with severe autism, intellectual or developmental disabilities. Many of the children also have co-occurring behavioral health diagnoses and distinct medical needs.

Safe and Secure Residences

The Lindens program consists of three homes enclosed in an accessible, yet controlled-access courtyard with a playground and a private family garden.

Each unit has:

- Five individual bedrooms
- Three full bathrooms
- Dining room
- Living room and den
- Educational/sensory space
- Laundry room
- Shared controlled access kitchen and staff office
- Video cameras throughout the common areas

Effective and Proven Care

Bancroft works in partnership with each child and their family to build communication skills and increase independence.

Depending on each child's needs, treatments may include:

- FBA with Functional Analysis
- Psychological testing – IQ, diagnosis
- Educational Evaluation
- Physical with blood draw on site
- Trauma Screening
- Group Therapy
- Art Therapy
- Social Skills
- Psychotherapy
- Family therapy
- Occupational Therapy
- Speech Therapy

A Team Approach Rooted in Applied Behavioral Analysis (ABA)

Bancroft's ABA Center of Excellence is a unique resource in the region. The program provides a path to improving quality of life for children, adults, and their families.

Using ABA, a transdisciplinary team of skilled clinicians applies evidence-based interventions. **Bancroft's expert clinical team includes:**

- Clinical Associates
- Board Certified Behavior Analysts
- ABA Specialists
- Safety Ambassadors
- Occupational Therapists
- Speech Therapists
- Art Therapists
- Social Workers
- Psychiatric Nurse Practitioners
- Nurses
- Psychiatrists
- Psychologist

All Bancroft programs are accredited by the Commission on the Accreditation of Rehabilitation Facilities (CARF), an international, nonprofit evaluator of consistent quality and effectiveness of health and human services.

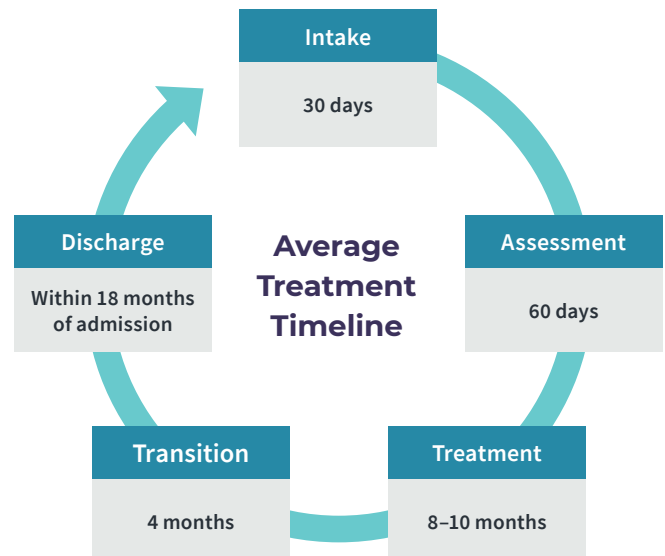

How Do You Measure Success?

At Bancroft, one of our primary measurements of success is based upon clinical outcomes.

The Lindens is an intensive stabilization program for children aged 5–21 with Autism or other developmental disabilities. As a national provider, the Lindens delivers systematic treatment to efficiently stabilize and effectively reintegrate children with severe challenging behavior.

100%	Youth Discharged with Improvement of One Target Behavior
87%	Youth Discharged with Improvement of Multiple Target Behaviors
55%	Youth Discharged with Improvement of All Target Behaviors
94%	Youth successfully discharged to a less restrictive level of care from FY19–FY21

Average Behavior Reduction in the First Year at the Lindens
