

Diagnostic Assessments and Neuropsychological Evaluations for Children

Early Diagnosis For a Lifetime of Care

Bancroft offers expert evaluations for children ages 2 to 17, leading to a formal diagnosis and better care. An early diagnosis facilitates early access to care and a lifetime of supportive services to help children with autism and intellectual/developmental disabilities live fulfilling lives.

Serving the Needs of Children in the Delaware Valley

Removing Barriers that Impede Success

Bancroft's diagnosis and assessment services are designed to meet the growing demand brought on by:

- The increase in autism diagnosis
- Long wait times for diagnosis
- Access to appropriate services

The goal: Provide an early diagnosis allowing for access to services and the best chance of success.

Services Offered

- Diagnostic Autism Assessment
- Diagnostic ADHD Assessment
- Full Pediatric Neuropsychological Evaluations
- Psycho-Educational/Learning Evaluations

Experience Matters

Bancroft's experience in treating those with autism and intellectual and developmental disabilities runs deep. We have over 100 years of experience in treating those with autism. The continuum of care begins here.

Danielle Ager
Psy.D.
Neuropsychologist

A licensed clinical neuropsychologist, Dr. Ager provides evaluations and diagnostic assessments to individuals across the lifespan. She has been involved in the expansion of outpatient pediatric services, including leading the neurodevelopment clinic, where she performs autism diagnostic assessments in addition to pediatric neuropsychological evaluations for children ages 2 to 17 with various neurodevelopmental conditions.

"We really loved working with Dr. Ager. She was so knowledgeable, compassionate, and most importantly very communicative. She explained everything in detail and was happy to answer any questions we had. We highly recommend Bancroft!" – Michelle V.
