

Residential Rehabilitation

About Bancroft NeuroRehab

Bancroft NeuroRehab is a premier provider of neurorehabilitation services in the region, helping individuals reclaim their lives following a brain injury or other neurological condition. At each of our three New Jersey locations, an expert team of clinicians works to build on each client's success toward the most independent life possible.

Let us help you rebound, recover, and reconnect.

All Bancroft NeuroRehab programs are accredited by the Commission on the Accreditation of Rehabilitation Facilities (CARF), an international, nonprofit evaluator of consistent quality and effectiveness of health and human services.

Experts in Brain Injury Rehabilitation

For over 30 years, Bancroft NeuroRehab has been a leader in helping individuals recover from traumatic brain injury and neurological conditions. Our reputation is built on successful outcomes, client satisfaction, and a continuum of care to match each individual's distinct needs.

From residential rehabilitation and day treatment programs tailored to each individual's clinical and social needs, to specialized outpatient therapies and vocational services, our team of rehabilitation professionals helps our clients regain the cognitive and functional skills needed to live as independently as possible.

Through each stage of rehabilitation, we work with our clients to help them achieve their recovery goals, reconnect with family, friends and the community and ultimately, to reclaim their lives.

Encouraging Independence in the Home and Community

Bancroft NeuroRehab's residential rehabilitation program provides community-based living solutions to adults living with a brain injury or neurological condition to help regain living skills, overcome day-to-day challenges, and to maximize confidence and independence.

Our rehabilitation professionals meet clients where they are in their recovery and ensure that new skills learned in our therapy and day program centers are applied at home and in the community. Clients can transition seamlessly through our range of modern and accessible group homes and apartments as their needs and abilities change over time.

Residential rehabilitation programs offer:

- **Full range of day treatment services**, including related therapies and vocational opportunities
- **Individualized rehabilitation** in personal care, household management, health and medical care, grocery shopping, money management, and budgeting
- **Customized daily supervision and support**, and assistance with safety, mobility, and transfers
- **Behavioral programming**
- **Social, recreational, and spiritual activities**
- **Transportation** from the group home or apartment to day treatment programs, therapies, medical appointments, and community outings

Day Programs to Maximize Independence

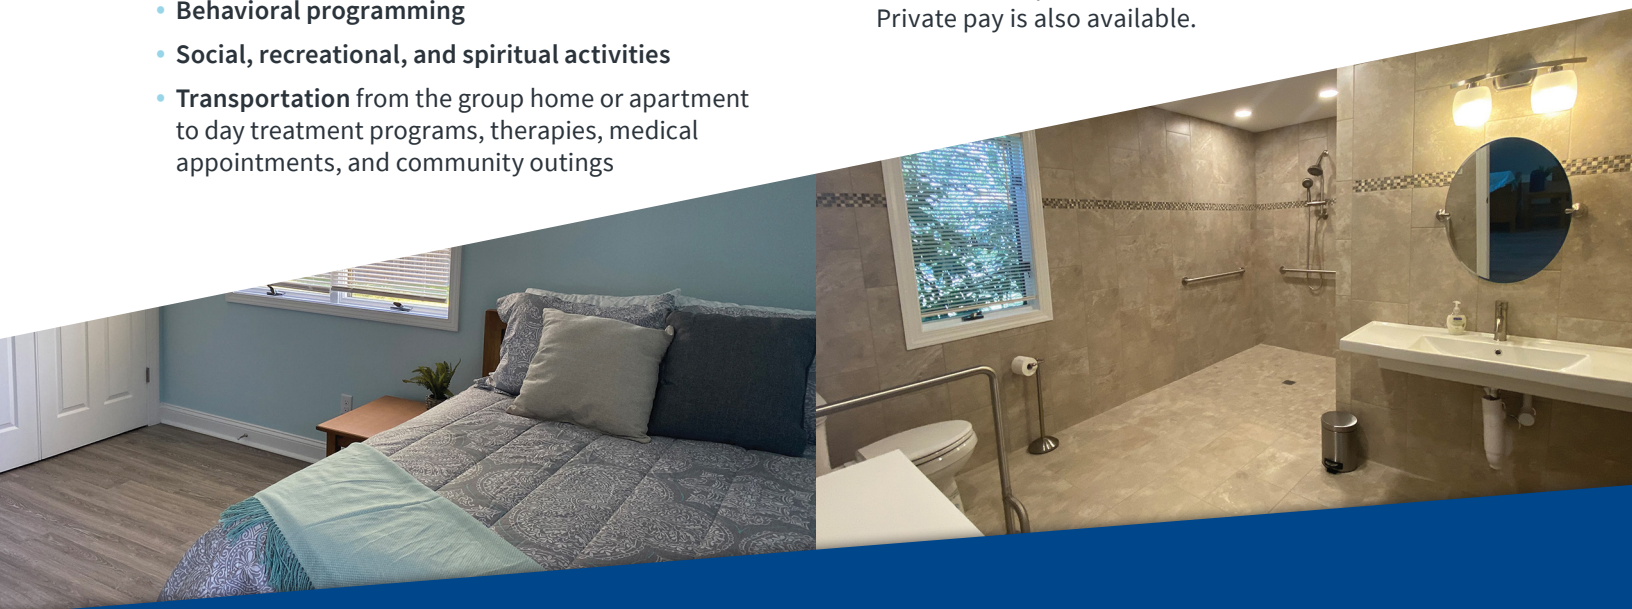

Our therapeutic day treatment programs provide structured programming centered on activities and recreation to help individuals regain functional abilities, vocational abilities, daily living skills and improve overall quality of life.

A transdisciplinary team of clinicians assesses each client to develop a customized treatment plan addressing:

- Level of assistance required
- Communication and language skills
- Cognitive deficits
- Behavior modification
- Vocational abilities
- Back-to-work transition
- Community participation

Funding Solutions

Payment for residential rehabilitation services depends on each individual's situation. Payors include Medicaid, Managed Long Term Services and Supports (MLTSS), Workers' Compensation, and VA's fee-basis office. Private pay is also available.
